1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

1. Use object destructuring when accessing and using multiple properties of an object.
   This helps avoid repetition and keeps code clean and readable.
2. If an "if" block always executes a return statement, the subsequent "else" block is unnecessary.
   This removes redundancy.
3. Use "//" for single line comments. Place single line comments on a newline above the subject of the comment.
   Aids readability and helps keep lines short.

_____
